Growing Healthier Churches

This is a sample PDF report

All personal and group names are fictional.

The live version lets you explore and interact with your data, and filter by congregation and demographic group.

Data Quality

Locations, Demographics and Categories

Quality Ratio	Member Quality
97%	98%

To get the most out of GHC tools, the Location and Demographics fields should be completed in all People profiles, or at least for those of Members.
It is also helpful to keep People Category settings current, in particular updating Newcomers who progress to Members.

Data Quality

Children in Families

Quality Ratio	Member Quality
74%	77%

For Children's Ministry, ,the School Grade and Birthday fields should be completed in Child People profiles, particularly for those of Members.
It is also helpful to keep Child family relationships for those in Child and Youth demographics as young folk grow up..

Data Quality

Groups

Quality Ratio	Small Group Quality
60%	100%

For Small Group Ministry, group membership and currency should be updated periodically., particularly for those of Small Groups.
It is also helpful to keep Groups organised by assigning them to a Category.
